

CRAIG FLETCHER

WISCONSIN ASSEMBLY DISTRICT 5

MOVING FORWARD

Putting the State of Wisconsin back on track.

As a candidate, I believe the 2010 Wisconsin Assembly Race is about three key issues:

1. Spending: Our state is too large and expensive for its citizens. We must lower spending and reverse government growth. State funded programs must provide positive economic growth. Assistance programs should assist people for a limited time. They should encourage positive personal growth and ethical behavior to make program beneficiaries self sufficient.

2. Jobs: We need to keep high paying jobs in Wisconsin by lowering taxes and reducing the overreach of state regulations. We need to draw new business to the state and partner with existing businesses to help encourage job growth and expansion.

3. Be Accountable to the Voters: We as taxpayers and the employers of our representatives deserve honest and ethical leadership. We must end the finger pointing, midnight illusionary budgets and budgets that use funds from one program to pay for another unrelated program. Laws and mandates that cannot stand on their own merits should not be passed.

I have no desire to make a career out of politics. I simply want to serve the State of Wisconsin and ensure the future of my children. I was proud to wear the uniform of our Military and I would be proud to once again serve the people of our great community. I am Craig Fletcher and I want to serve as your 5th District State Assemblyman.

Authorized and paid for by Friends of Craig Fletcher for assembly, Ron Zahn, Treasurer.
